

Wiscasset Green Welcomes Visitors

The Wiscasset Green facility on Washington and Hodge Street has a small sign outside that invites folks in for coffee on the first Friday of every month at 9 a.m. Terri Wells and Sally Gemmill took the up on the offer in April. They sat at the kitchen table over coffee where six of the eight residents to joined them. It was a lively group that shared personal facts about themselves but also about their lives at this Assisted Living home, which a few of them raved about. This AL facility is connected with other seven other local Village Green homes and most of them are located near the center of each of the towns so they can get involved in the community activities...so some of them had been to the LCHA presentations at the 911 center, etc. Terri and Sally invited them to the library talks.

All the residents were friendly and seemed eager to talk about the trips they have taken as a group, their cookouts, etc. They gave a tour of the home, which has a common living room, activity room, and more. Terri said, "It was great and we both would go back again. The residents we met were mostly in their 90s and were all eager to share facts about their own lives and seemed surprised and excited that we dropped in. In fact, I can't go this Friday so I'm going to stop in to tell them that I'll be there the first Friday in June instead....I really enjoyed our visit with them."
